CHOOSE A DIFFERENT PATH

People have always liked to **travel** and have, through time, developed many methods for making **travel** fast, comfortable and safe. However, it seems we have today arrived to a point where mobility is precisely what is starting to limit us. Traffic jams are a daily occurrence, the search for a parking space is often a nightmare and the number of severe traffic accidents is on the rise. We seem to be caught in a trap of our own making.

The traffic situation in Alpine areas is very similar. However, here we are in the midst of a very sensitive environment. For this reason, some municipalities in the area of the Julian Alps have already set out to decrease the traffic intensity. We must be aware that the processes of changing the established systems and habits require a long time, however they prove to be effective.

Public transport represents an important part of the traffic intensity decrease process and sustainable mobility. This is third booklet published by CIPRA Slovenija which contains timetables and is intended to facilitate bus and train travel, bringing it closer to the people living in the area of Julian Alps as well as those who visit it. This year demand for international version of booklet becomes more distinctive. Alpine association of Slovenia joined municipalities of Bled, Bovec, Kranjska Gora and Tolmin, Triglav National Park, Bohinj Tourism and CIPRA Slovenija in order to promote public transport also to foreign visitors.

Today, traffic is indispensable. However, we should organise it in a way that serves people and spares the environment.
