## FURTHER INFORMATION | Field visit

---

The Field Visit will be organized in Terzolas-Malè, where it will be possible to enjoy the splendid autumnal mountain landscape of Val di Sole (Trentino). We will stay at a former convent of the Capuchin Friars dating back to 1894, now transformed into an accommodation facility, which has always been a place of meeting, training and cultural promotion, set on a promontory in a panoramic position in the heart of Val di Sole, at the entrance to the Stelvio National Park.

The visit will be an opportunity to present the pilot project carried out in Trentino through the presentation of videos and testimonies of some of the protagonists, in particular of Eliyassa, a young shepherd from Gambia who integrated his African pastoral skills in the local agricultural techniques. We will visit the ethnographic museum "Museo della Civiltà Solandra", which collects objects and tools of material culture, testimonies of the traditional activities of the local population: agriculture, forestry, cheese making, craftsmanship and displays an accurate reconstruction of the domestic environments.

During the field visit an interactive experiential exhibition "Escaping from Syria" will be showcased.

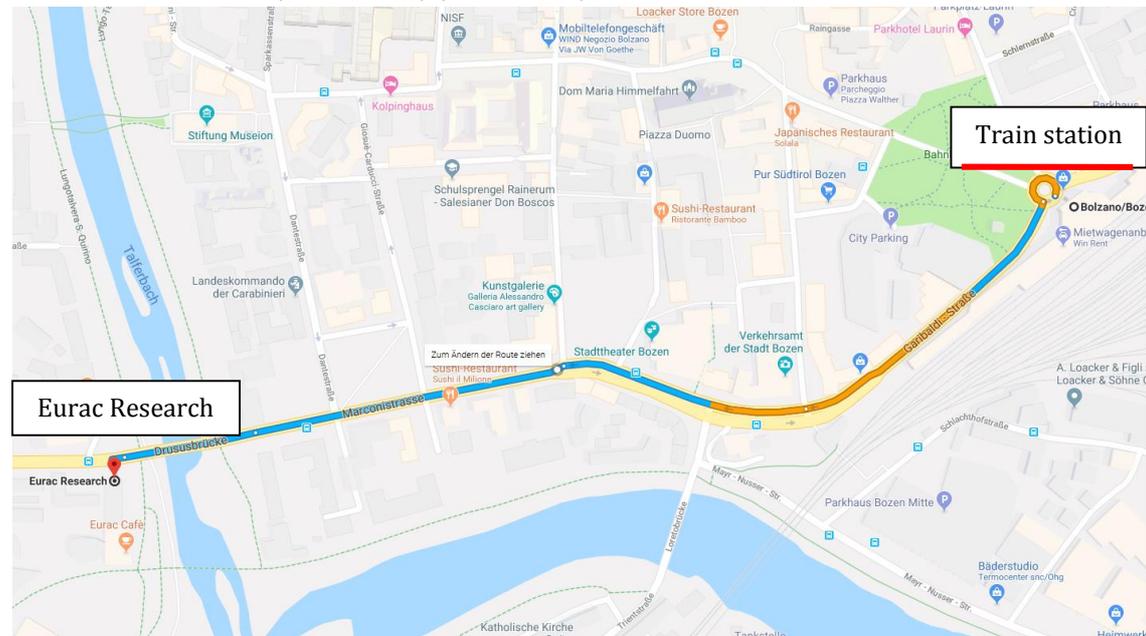

The cost for the field visit is approximately 60€ for a single room in "Al Convento" ([www.alconventoterzolas.it](http://www.alconventoterzolas.it)) including dinner and breakfast. The participants will pay directly at the accommodation during the field visit in cash or by card. The transport from and back to Bolzano is arranged by the conference organizers.

**Maximum number of participants: 32**

### **BOLZANO/BOZEN – At the intersection of two cultures**

Bolzano/Bozen mesmerizes with its double perspective: two lifestyles – one Northern European and the other more Mediterranean – combined to make the perfect union that visitors recognize in the historic and artistic treasures of this city with a population of more than 107.000. For centuries, Bolzano has been the privileged centre of commercial exchanges between Italy, Austria and Germany. Today, the capital of the Autonomous Province of Bolzano-Südtirol/Alto Adige has become a cosmopolitan city that knows how to be lively, cheerful, modern and yet refined all at the same time!

The presence of central Europe and Mediterranean traditions is most evident in the regional cuisine that you find both in Bolzano/Bozen and its surroundings. Every season has its traditional dishes, so enjoy the fall in the city or outside with a typical “Törggelen”.
