

CHAMBÉRY/FR

CHILDREN'S CENTER «FERME JULIEN»

© G. Garofolin, City of Chambéry

The old, renovated part of the former farm was inaugurated in 2010 and houses a large meeting room. In the new part different options of child care can be found at the «Treasure Island», while «The little gnomes» provides a meeting point for nannies.

The building is equipped with energy efficient appliances and consumes only little power. Also, it was built of unarmful materials. The air quality and energy consumption are being monitored. The center is connected to the district heating grid and its photovoltaic system covers about 65% (20'000 kWh/a) of the needed energy.
