

# Climate change: thinking one step forward!

Romeno, 25<sup>th</sup> March 2010

Serena Rauzi, CIPRA Internazionale

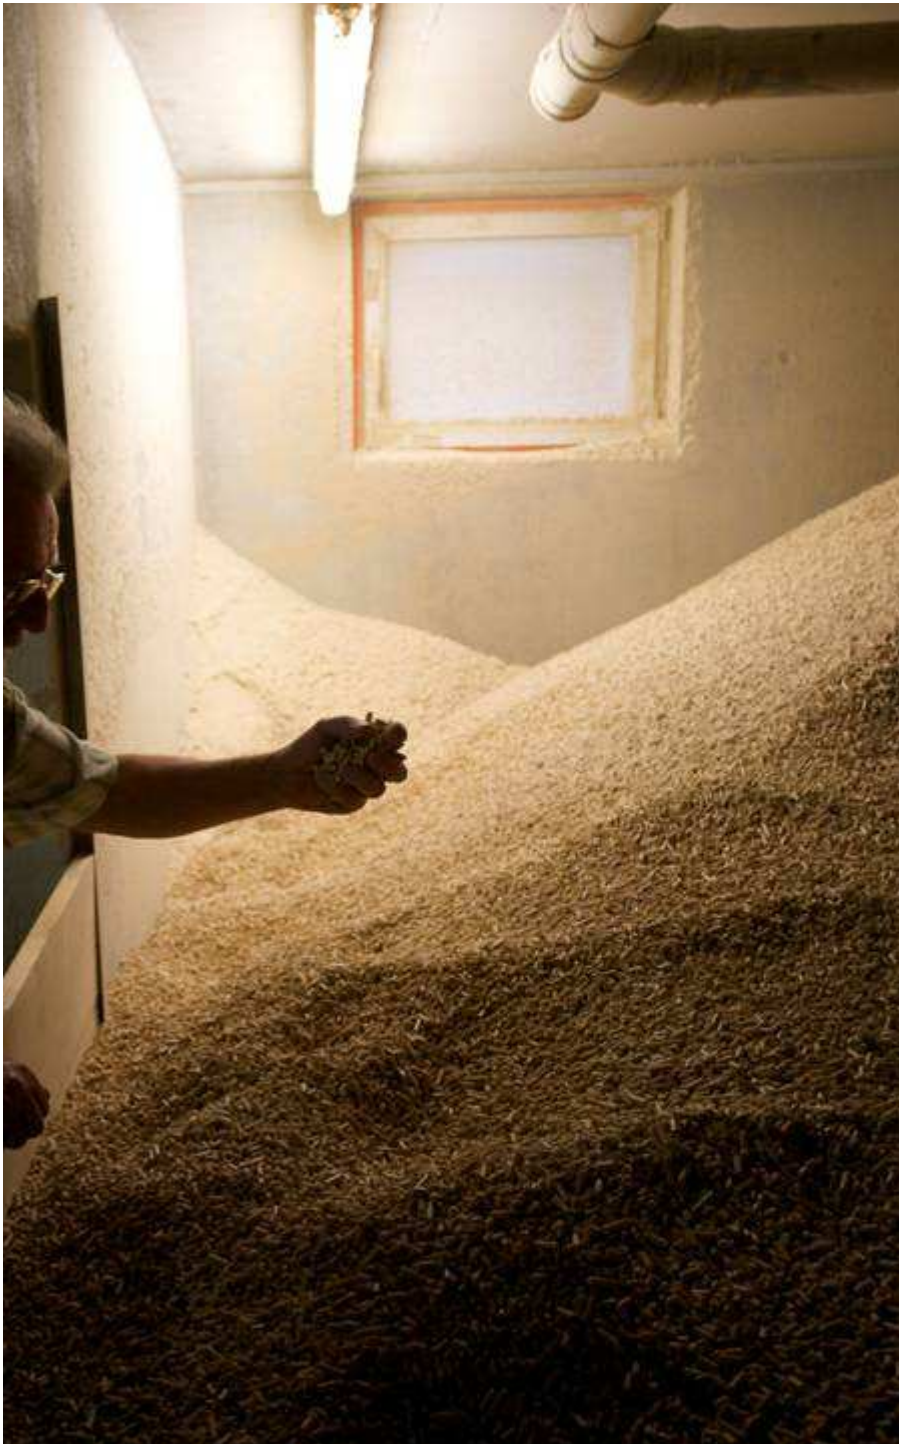

Consequences  
of climate change in the Alps  
are visible

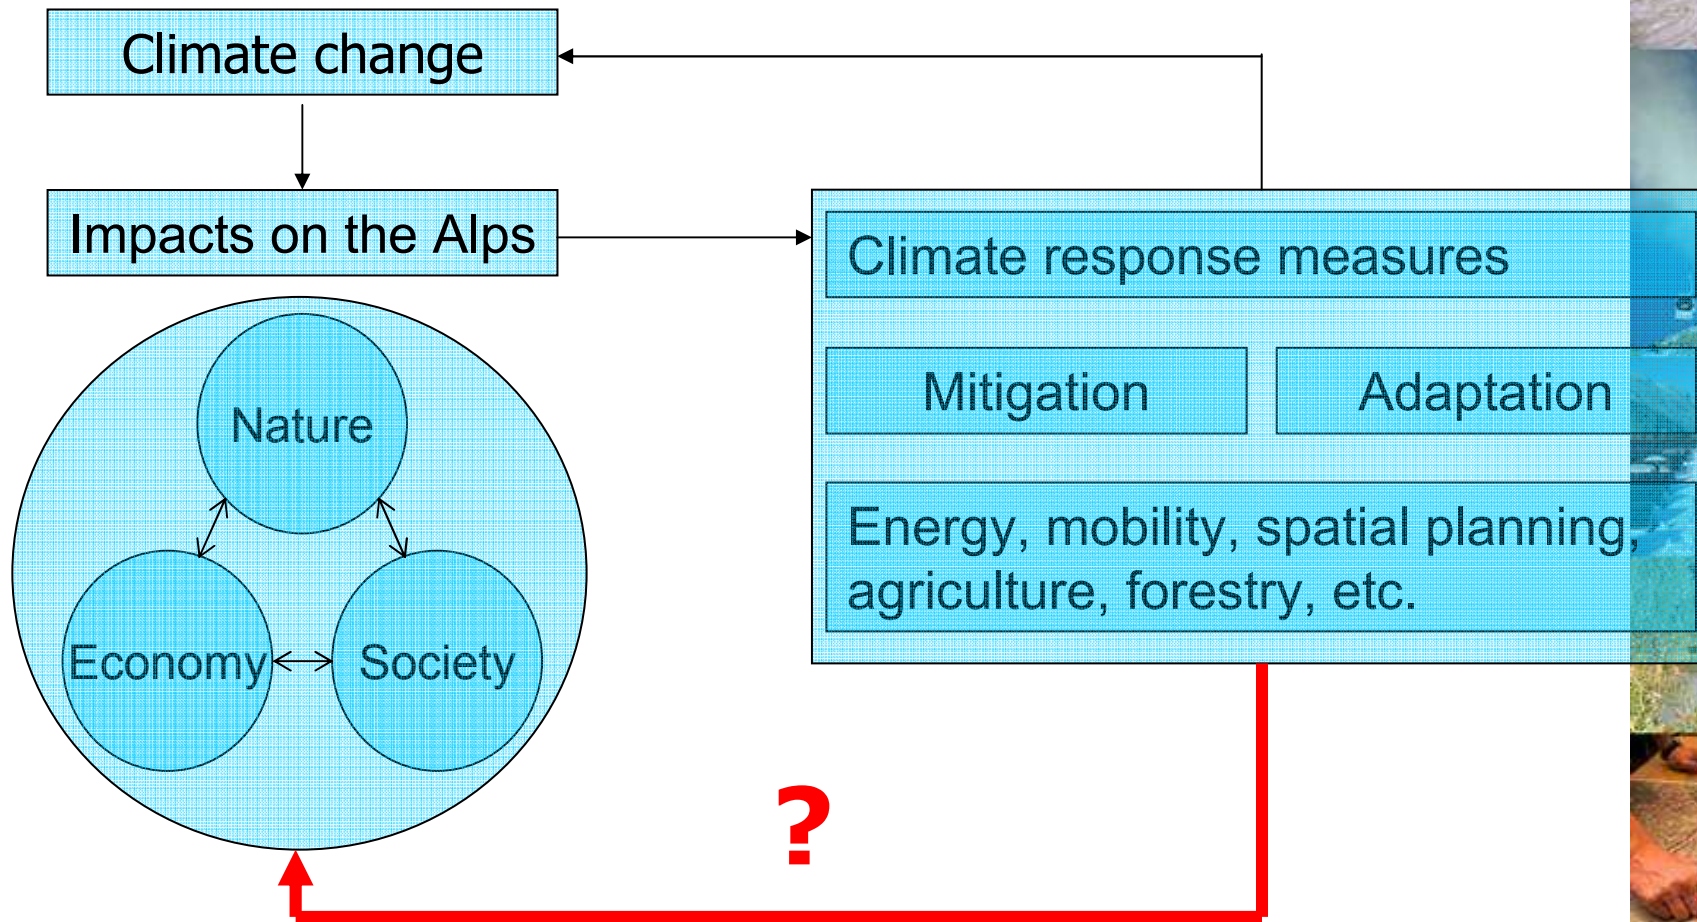

# How do we fight climate change in the Alps?

# Think one step forward!

# Facts and CIPRA Positions

---

- Transport: the real problem! Public transport, regional circles ! Priority for bicycles !
- First of all: reducing energy consume!
- Energy: more efficient hydroelectric power stations instead of new ones, spatial planning must foresee solar and Photovoltaic panels
- Spatial planning: Take account of risks! . Higher density instead of sprawl!
- Passive houses: depends on "where"!

11 "compacts"

# What's next in 2010?

---

- Coordination of transnational project with **pilot regions ("Leader")**
- Synergies with "Alliance in the Alps" for concrete projects in municipalities (**"dynAlp climate"**)
- Dissemination of knowledge and awareness rising

Thank you for your attention!
