# SUSTAINABLE MOBILITY IS OUR FUTURE

## A Habit Leading to a Goal

Due to its natural and cultural resources and attractions, the Alpine region is increasingly under pressure. Encouraging sustainable modes of traffic is one of the six priorities of Alpine Convention's multiannual Work Programme for 2017–2022, the goal of which is to reduce the traffic load in the Alps.

Individuals' unsustainable mobility habits may significantly affect the region, thereby reducing its attractiveness. We all prefer taking a walk among the trees rather than through densely parked cars. By changing mobility habits, we do more than just help decrease our carbon footprint and air pollution levels. We also contribute to a better quality of life, reduced noise levels, and less parking pressure, thereby improving the attractiveness of Alpine landscapes. We hope that this booklet will help us work together to inspire more sustainable and nature-friendly visits to the Alps and other mountain regions.

### **Deciding on sustainable mobility means helping the environment in a simple but effective way.**

We would like to thank all of our partners who contributed to publishing the ninth edition of the booklet *Timetables in the Alps: the Alpine Convention, the Slovenian Tourist Board, the Alpine Association of Slovenia, Triglav National Park, Kärnten Bus, and the local tourism organizations for Bled, Bohinj, Bovec, Idrija, Jesenice, Jezersko, Kamnik, Kranj, Kranjska Gora, Ljubljana, Luče, Maribor, Preddvor, Radovljica, Slovenj Gradec, Solčavsko, Sotočje, and Tržič.* Thank you!

**We wish you a pleasant ride,**

## TNP Triglav national park

The Park is the only Slovenian national park. It extends in the south-eastern section of the Alps. Its territory is nearly identical with that occupied by the Eastern Julian Alps. The park covers 880 square kilometres. The Triglav National Park is among the earliest European parks; the first protection dates back to 1924 when the Alpine Conservation Park was founded.

# FIRE ACROSS THE ALPS 2017

## THE CAMPAIGN

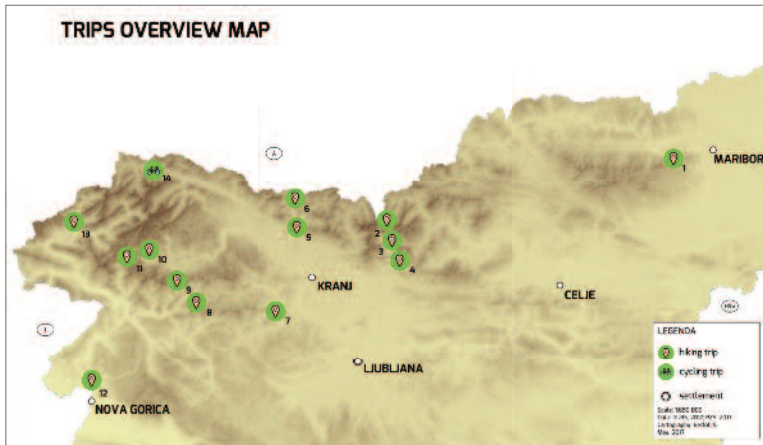

The event Fire across the Alps, which the nongovernmental organization CIPRA has held each year on the second Saturday in August since 1986, seeks to highlight a comprehensive manner of addressing environmental and developmental issues in the Alps. Natural landscapes and high mountain ranges are increasingly suffering from tourism and energy transition. Just as bonfires on hilltops once used to serve as a warning method in the case of imminent danger, nowadays the light glowing from the hilltops and valleys warns about vulnerability of the Alpine region.

This year's campaign encourages mountain enthusiasts to be "*transported into the mountains*" by train, bus, bicycle, or on foot as a mode of mobility.

Compared to more ventilated lowland regions, the Alpine region is even more affected by automobile traffic in terms of air quality and other environmental factors, quality of life, and people's health. This is why the brochure "*Transported into the Mountains*" was published as part of Fire across the Alps. It offers fourteen ideas for trips with starting points accessible by public transport.

## ANYONE CAN PARTICIPATE

Anyone going to the mountains in a sustainable way can take part in the campaign from June to September by symbolically lighting a 'fire' on Slovenian hilltops and mountaintops (a candle, camera flash, or mobile phone light) and thus support the message of this year's campaign in principle. All participants are requested to send a photo from a Slovenian hilltop or mountaintop, stating their location and how they got there, by e-mailing it to [slovenija@cipra.org](mailto:slovenija@cipra.org) or posting it on social media:
