## SUSTAINABLE MOBILITY IS OUR FUTURE

Have you ever asked yourself how or even why contributing to the clean environment?

**As the proverb goes: "Success by the yard is hard, inch by inch it's a cinch!"**

You are holding the seventh edition of the booklet *Timetables in the Alps* that offers an overview of the timetables for the railway, bus, local transfer and bike rentals in the territory of the Slovenian Alps and part of the Carinthia in Austria.

The wish to encourage the use of sustainable mobility in Slovenia is growing fast. The realisation of the public transport that contributes to the cleaner environment fills us with optimism and brings us the motivation to be or become part of that change.

Freight and passenger transport are big contributors to the climate change, particularly for the Alps, which are crossed by important traffic routes that connect South and North of Europe. Sustainable mobility therefore plays a big role in the framework of the Alpine Convention which is trying to address and manage this topic through the Protocol on the Transport and the Climate Action Plan in an integrated way. The support of the Permanent Secretariat to the project of the „Timetables in the Alps“ is a contribution to the promotion of the use of public transport.

Take charge and make change in the locations where you live or that you visit. Use sustainable transport solutions when going to work, for a trip or a visit! Do a step towards a cleaner environment!

I would like to thank to all of the partners that actively participated in the preparation of the seventh edition of the *Timetables in the Alps*: Cipra Slovenia for the initiative and coordination and the other partners that you can find listed on the last page of the booklet. Thank you all!

Be part of the positive action for yourself, your family and friends and for the generations to come!
