TRAJNOSTNA MOBILNOST JE NAŠA PRIHODNOST

Saving the World one bus-ride at a time

In the climate change agreement from Paris (COP21) the countries of the world agreed to contain global temperature increase to below 1,5°C, maximum of 2°C. Yet, in our area, we are already witnessing an increase of average temperature since the industrial revolution in that order of magnitude!

Mountain regions are vulnerable to climate change. That is why it is extremely important that we start acting responsibly, to keep the beautiful Alpine region beautiful also for our children and grandchildren.

Initiatives like the "Timetables in the Alps" that you are holding in your hands, contribute to this goal not only by presenting the options and making your planning easier, but also by changing the mindset of people.

Remember, also small changes may have a big impact on our environment! Re-think your use of the car!

I would like to sincerely thank all the partners that actively participated in the preparation of the eighth edition of the Timetables in the Alps: Cipra Slovenia for the initiative and coordination, Slovenian Tourist Board, Alpine Association of Slovenia, Triglav National Park, Kärnten Bus, local tourist organizations of Bled, Bohinj, Bovec, Idrija, Jesenice, Jezersko, Kranj, Kranjska Gora, Ljubljana, Maribor, Preddvor, Slovenj Gradec, Solčavsko, Sotočje, Tržič. Thank you!

Markus Reiterer, Secretary General of the Alpine Convention

TNP Triglav national park

The Park is the only Slovenian national park. It extends in the south-eastern section of the Alps. Its territory is nearly identical with that occupied by the Eastern Julian Alps. The park covers 880 square kilometres. The Triglav National Park is among the earliest European parks; the first protection dates back to 1924 when the Alpine Conservation Park was founded.
